Message

With pleasure, I have the honor to invite all Fellows, Residents, and Guests specially our Foreign Delegates and their families to the 67th Annual Clinical Congress of the Philippine College of Surgeons on December 4-7, 2011 at the EDSA Shangri-La Hotel, Mandaluyong City.

As the prime activity of the College every year, I am confident that the hard work by the various committees involved will be fruitful. The meticulous choice of expert foreign speakers from various specialties not only from the region but from the US and Europe will surely interest the participants as we tackle "Managing Complex Problems in Surgery". The Congress will provide the practicing surgeon a wide array of topics that figure prominently in our everyday practice.

On top of the multi-specialty participation, a number of specialties will offer postgraduate courses such as the Philippine Society of General Surgeons, Philippine Society of Colon & Rectal Surgeons, and the Philippine Society of Ultrasound in Surgery. The Fellows are welcome to join the 7th PCS Photo Contest with the theme "Motions".

For our traditional Fellowship Night which you should not miss, we have lined up an entertaining evening of songs and dances from the chapters and guest entertainers for you and your families to enjoy. For a change, a post-convention golf tournament has been organized to accommodate golf enthusiast Fellows from the province on December 8 at the South Course, Valley Golf and Country Club, Antipolo City.

I look forward to welcoming all of you on December 4.

Welcome and Mabuhay!

JOSEFINA R. ALMONTE, MD, FPCS
President
Philippine College of Surgeons

Message

Through the years, the Philippine College of Surgeons, Inc. has raised its guards to maintain well balanced, updated and interesting scientific sessions. Recently, the College also included timely needed non-scientific fora. The international convention during the PCS Midyear Convention in Cebu City last May 2011 has elevated our standards to a higher level. Onwards, our convention will never settle for less.

The annual congress theme is “**Managing Complex Problems in Surgery**”. This maybe sullen in context but the total learning experience will surely be encompassing. The congress will also try to tackle alarming and difficult profession - related issues that confront Filipino surgeons nowadays.

As we continue to celebrate the PCS Diamond Jubilee, the Conventions Committee will commence several innovative activities that will surely become milestones as the College continuous to live on its legacy of excellence.

This will be the best time of the year to enhance our knowledge as this will also be the excellent opportunity to rekindle past acquaintances among our colleagues and friends. We welcome you all to the 67th PCS Annual Clinical Congress!

Mabuhay po tayong lahat!

The Annual Clinical Congress is designed to provide a wide range of learning opportunities and activities that will update the Fellows, Residents and Guests on the Management of Complex Problems in Surgery.

Objective

The aim of this congress is to emphasize the importance of a multidisciplinary approach in the management of various complex surgical conditions and situations.

Using the Program Planner

The planner has been designed to facilitate your selection of programs so that you can take advantage of all that the congress has to offer. It is divided into the following sections:

- Scientific Program
- General Information
- Registration Information
- Meetings and Events
- Hotel Information

The Plenary Sessions, Kapihans, Tanghaliens, Postgraduate Courses, General Sessions, Research Fora, Cine Clinics, Workshops, and Specialty Sessions have included the descriptions and details. In the program at a glance, all the sessions and activities from Day 1 to Day 4 are listed chronologically.

FACULTY DISCLOSURE STATEMENTS

The College' Committee on Continuing Surgical Education has a conflict of interest policy that requires the congress faculty to disclose any real or apparent commercial financial affiliations related to the content of their presentations/materials. It is not assumed that these financial interests or affiliations will have an adverse impact on faculty presentations. They are simply noted here to fully inform the participants.

CANCELLATION OF SESSIONS

The Philippine College of Surgeons reserves the right to change or cancel any of the scientific sessions listed in this program planner.

SCIENTIFIC PROGRAM

General Objective:

At the end of the congress the participants should be able to know the various approaches in managing complex surgical problems highlighting the importance of multidisciplinary care.

Specific Objectives:

- To present and discuss difficult clinical conditions faced by the surgeon requiring the care of various disciplines
- To promote a wholistic and team approach in managing these complex surgical problems in order to improve quality of care without necessarily increasing cost of healthcare.

TOURS

CHARMS OF OLD MANILA (approximately 4 hours) Minimum 2 persons – PhP2,660.00 per person

Take a step back in time as you discover the "*Charms of Old Manila*". The tour starts with a visit to historic **Rizal Park**, where the remains of our country's national hero, Dr. Jose Rizal, lie within the cornerstone of Rizal Monument. Tour heads on to the old walled city of Intramuros built during the Spanish colonial period. The first stop is **Fort Santiago** which served as headquarters of the military might of the Spanish, American and Japanese colonizers until its destruction in 1945. Tour then proceeds past the San Agustin Church, the oldest structure in the country which dates back to 1571. The next stop is **Casa Manila**, a reconstructed 19th century mansion replete with 16th to 19th century furniture and furnishings. The last stop is **Baluarte de San Diego**, the only battery directly facing the sea.

NEW MANILA TOUR (approximately 4 hours) Minimum 2 persons – PhP2,660.00 per person

The other half of Manila is a modern metropolis which is gaining more importance as a major artery in the financial life stream of the country. The first stop is the **Cultural Center of the Philippines Complex**, a reclaimed land situated along Roxas Boulevard, reminiscent of the glorious years of the Marcoses. The drive through the complex starts with a glance of the fountain-adorned **Cultural Center of the Philippines**, the country's seat of cultural awareness. Then move on to the **Philippine International Convention Center** and **Folk Arts Theater** which are favorite venues for both local and international events, concerts and performances. Adjacent to the structures are the **Coconut Palace**, a building made mostly of coconut materials and Westin Philippine Plaza, a deluxe hotel which gives a magnificent view of the Manila Bay. Tour then proceeds to the financial and commercial center of **Makati**, passing through the plush residential village of Forbes Park dubbed as "*Millionaire's Row*". The last stop is the **American Memorial Cemetery**, the largest and most beautiful outside continental U.S.

TOURS

CORREGIDOR ISLAND TOUR (approximately 8 hours)

Minimum 2 persons – PhP3,375.00 per person

Corregidor, the island-fortress, is a 1-hour ferryboat ride. Located 26 miles west of Manila, "*The Rock*" as it became known during World War II, was the last Filipino-American bastion to fall to the Japanese. Tour includes a guided visit to the island's many "silent guns" and historical landmarks. The stirring Light and Sound Show inside the cavernous Malinta Tunnel which served as General Douglas McArthur's headquarters during the siege should not be missed. Return to Manila after lunch.

INVIGORATING TAGAYTAY (approximately 8 hours)

Minimum 2 persons – PhP7,000.00 per person

A leisurely 1-hour and 30-minute drive through the countryside passing through coastal villages, ricefields, fruit orchards and coconut plantations shall take you to the cool climate of Tagaytay. Nestled in a secluded corner of Tagaytay Ridge about 2,250 feet above sea level is Tagaytay Highlands which offers a panoramic view of one of the rarest known sights in the world – the smallest Taal Volcano. Spend the rest of the day enjoying Tagaytay's natural attractions: its beautiful views, dramatic terrain and cool mountain climate.

ALL PRE- AND POST- CONFERENCE TOURS MAY BE AVAILABLE BY ACCOMPANYING PERSONS.
